PROBLEMS OF CITY

They Will Be Considered Thursday by Board of Trade.

CASH FOR PUBLIC SCHOOLS

Future of Herd Line Also Matter of Discussion.

LIQUOR PENALTY IS URGED

Committee Would Have Stricter Guard Against Sale to Minors. Matter of Bridges.

Many important recommendations by committees will be taken up for consideration at the meeting of the Board of Trade Thursday night at 8 o'clock in the New Willard Hotel. The public school committee is to make recommendations regarding the appropriation for the schools, and the committee on transportation will submit to the board for action recommendations regarding the 16th street herd line and also the public utilities commission bills now before Congress.

The other committees and their recommendations, which have place on the program are as follows:

Regulating Liquor Sale.

Charities and corrections—Approval of amending the present law as to sale of liquor to minors by imposing penalties for its infraction on those selling to minors, whether such sales are made with knowledge of the minority or not, and by changing the penalty for violation so that the punishment for the first offense may not be less than \$25, nor more than \$50, or imprisonment for thirty days, or both; and upon a second conviction that the offender shall be liable to the revocation of the license.

Approval of making sale of the present of the Industrial Home School and purchase of a new tract in a favorable location in the District, where the home may have new buildings for the temporary care of children who ought not to be committed to any existing institution.

Approval of erecting a building adequate to accommodate the juvenile court of the District of Columbia.

Program for Bridges.

Bridges—Approval of replacing present Pennsylvania Avenue bridge over Rock creek with a modern, substantial bridge in harmony with those recently provided for across that stream.

Approval of provision by Congress at next session of amount sufficient for the completion of the Q street bridge, which was provided for at the last session of Congress.

Approval of provision by Congress for preliminary work looking to the entire reconstruction of the Capital Street bridge.

Approval of provision by Congress for replacing the bridge across Klingle ford, on Connecticut avenue extended.

Approval of appropriation by Congress of amount sufficient to construct road over railroad tracks at Benning road, which is probably the most dangerous grade crossing remaining in the District of Columbia.

Approval of Congress being urged to vest authority in the District with authority to prevent building private structures in future in immediate vicinity of the railroad tracks from their approach, and the natural beauty of the localities.

Approval of persistent efforts of the board, until crowned with success, to secure a grand memorial structure across the Potomac river fitly to typify a reunited nation.

Better Fire Protection.

Insurance—Approval of the increase in the number of fire power engines and hose carriages for the suburban sections of the District.

Approval of a high water pressure service for the business section of the District.

Industrial interests—Approval of the postmaster employing such means as he can command to determine the practicability of the proposed street car mail box paid by actual experiment.

Approval of abolishment of Army, Navy and Marine Corps commissary stores at all centers where the stocks of legitimate supplies are accessible.

Public Library—Approval of more liberal appropriation to provide better salaries and additions to the force, especially in the higher grades.

Approval of adoption of a plan for the establishment of a branch library building under Mr. Carnegie's offer, and provision for at least one site for an additional branch library during the next session of Congress.

Hearing on Herd Line.

The public transportation committee gave a hearing yesterday afternoon on the service given by the 16th street herd line. S. Dana Lincoln, president of the Metropolitan Coach Company, which operates the herd line, and Samuel Casseheimer, who wishes to run a rival line on 16th street, were present. Mr. Lincoln said that his company was operating the line at a loss of \$6,000 a year. He was asked why the company continued to operate at a loss. His reply was that there was hope for better opportunities in the future, and for that reason the company did not relinquish its franchise.

Samuel Casseheimer said that if he were given a franchise to operate a line on 16th street, charging a fare of 10 cents, he could operate ten buses on a five-minute schedule. If certain concessions were made by Congress, he said that he could operate the line on a five-cent fare basis.

URGES MORE POLICE

Maj. Sylvester Pleads Better Protection for Suburbs.

SERVICE IS HANDICAPPED

Holds Force Inadequate to Properly Patrol Extended Districts.

TRAFFIC CONTROL SUFFERS

Department Chief Quotes Figures of Other Cities to Back Views in Annual Report.

In the report of Maj. Sylvester, chief of police, for the year ended June 30, 1911, particular attention is paid to the amount of territory the police have to patrol, and the necessity for better protection in the suburbs also is discussed. The report gives the amount of territory patrolled by the police of a number of other cities. Maj. Sylvester says in the report:

"On the principle that those contributing an equal government support and residing in the less dense populated section should be afforded an equal protection equal to that extended to those living in the more congested localities, the District is justly entitled to a larger police patrol force."

"The result of police activity would justify the same conclusion. The opportunities for marauding and chances for escape are best where the means of prevention and detection are least; the extended districts where the reduced police patrol prevails."

Wide Streets Increase Work.

"Reports give 210.11 miles of improved thoroughfares and 254.06 miles of macadam, gravel and unimproved streets and roadways, aggregating 464.17 miles throughout the District territory, which becomes more extensive for comparison, from a police standpoint, with more than ordinary width of the avenues and streets is taken into consideration, the average width of the avenues being 100 feet and of streets 80 feet, thus adding materially to the work of the police patrol in the enforcement of traffic laws and regulations."

"In other jurisdictions the widths average from 60 to 70 feet. Where 160-foot avenues and 80-foot wide streets converge or intersect in the congested localities, double or triple the force is required to master the traffic situation, as against that required elsewhere."

"Owing to the limited patrol force at command, however, the full measure of proper service cannot consistently be applied at the dangerous and crowded intersections and numerous places; as the last mentioned places three or four thoroughfares intersecting."

Outlying Towns Included.

"The roads traversing the District territory are largely built along and form the skeletons that connect the many villages, towns and subdivisions. They are patronized not only by those in high official life, but by thousands of visitors, from throughout the United States and abroad."

"Rock Creek Park, Potomac Park, Catholic University of America, United States Hospital for the Insane, Pennsylvania railroad approaches to the beautiful terminal station, Soldiers' Home, bureau of standards, Army and Navy Preparatory School, Catholic School and hundreds of important institutions and homes are included in the roadway section of the District. Four long bridges cross the Potomac and three the Anacostia river, and all the foregoing require a close police patrol attention."

"The villages, towns and parks, extended and extrajurisdictional, numerous costly institutions, such as those already referred to, Washington city, with the Capitol, the House, departmental buildings, government workshops, galleries, legations, steamboat wharves and important and valuable interests of the city, are kind known only here, as well as the residential sections, are guarded by a daylight patrol force of about 100 men and a night force of about double that number."

Assignment of Force.

"This situation is the result of the disposition of the privates in the force, they being the active factors in the work of prevention and detection of crime and preservation of order."

"Total number of privates, June 30, 653; privates detailed as detectives, 20; privates sick, 21; privates on leave, under the law, 31; privates assigned to duty, 118; privates detailed to special duty, 65; privates available for patrol service, 403."

"The resultant number is divided into four 'reliefs' of eight hours each, with half of each relief coming 'off duty' detailed on reserve duty for 16 hours, at the several precinct stations."

It is stated in the report that the police jurisdiction embraces the entire District of Columbia, an area of sixty-nine and seven-tenths square miles.

Other Cities Compared.

Washington, Georgetown, Anacostia, Chevy Chase, Cleveland Park, Ivy City, Petworth, Brightwood, Eokington, Brookland and over sixty villages and towns are included within it.

According to the police census compiled in 1909, the population of the District of Columbia was 243,003, of which number 245,961 were white and 97,142 colored.

The various villages and settlements along connecting roadways aggregated 83,237 in population at that time. Since then the true and floating populations have materially increased.

Considered from an acreage area, by way of comparison, New York city embraces 320 sq. miles; Chicago, 121,920 sq. miles; Boston, 24,613; Pittsburgh, 13,826; Cleveland, 25,378; Detroit, 22,976; Milwaukee, 14,981; and Baltimore, 10,290.

BICYCLE POLICEMEN ACTIVE.

Fines in 1911, From 6,456 Arrests, Aggregate \$33,373.

Members of the bicycle squad of the police department, who are primarily engaged in enforcing the traffic laws and regulations from 8 o'clock in the morning until midnight, made 6,456 arrests during the last fiscal year. Fines in the cases aggregated \$33,373. In addition to those on duty during the hours mentioned one bicycle policeman is on duty in each precinct from midnight until 8 o'clock in the morning for emergency work.

RULES VIOLATED BY 170.

Twenty-Nine Charges Dismissed. Six Removed From Force.

During the last fiscal year 170 members of the police department were charged with violations of rules of the manual, and in twenty-nine cases the charges were dismissed. Twelve policemen were tried for intoxication, 15 for failure to pay just debts, 15 for absence without leave and the others for violations of various rules of the manual. Nine policemen were fined, 15 were deprived of part of their leave, 6 were removed from the force, 19 warned and 2 warned and transferred.

They are silks that you pay from 50c to 60c a yard for usually, and they are noteworthy bargains at 39c a yard.
Bargain Tables—Street Floor.

The Painless Wilhelmina Foot Treatment.

The Marvelous Cures That Are Being Made by This Treatment Are Almost Beyond Belief.

That the foot is responsible for a great many diseases has become a positive known truth.

FOOT TROUBLES

are due to the bones of the foot becoming misplaced, which affects the circulating medium, and overburdens the heart, one of the first symptoms being cold hands and feet.

The bones being disarranged lets the whole system down, twisting it from its normal position. The stretched conditions of the cords puts the muscles and fleshy portions of the body out of line, which in turn stretches and deranges the nervous system.

EVERY ORGAN IN THE BODY IS AFFECTED.

Then you begin to realize not only pain in the foot, limbs, back, head and muscles, but a disposition towards dizziness, palpitation of the heart, a languid tired feeling, irregularities of the digestive organs, nervous or morbid sensations, etc. All these symptoms are signals of distress from an overworked system, brought on entirely, in a great many cases, by what is known as "flat-foot" or "fallen arch," the existence of which is shown by spread metatarsals, or the bones, contracted toes, callouses on the bottom of the foot, bunions and so-called rheumatic pains or disorders.

We are permanently curing people in all walks of life of all these diseases, as hundreds of our patients will testify.

WE CAN POSITIVELY CURE YOU.

We take patients to treat by the month, varying in price according to the severity of the case, and the length of time it takes to cure it, but

THIS CURE IS WITHIN THE REACH OF ALL

and we cordially invite you to come to the office between the hours of 10-12, and 3-5-30 for free consultation and examination.

THE ONLY PLACE IN THE CITY WHERE THIS TREATMENT IS GIVEN.

The Wilhelmina Foot Treatment,
Phone Main 7639. 902 G Street N.W.

WILSON & MAYERS

THE STORE OF FINE FURNITURE AT MODERATE PRICES.

As furniture enters so largely into the joy and comfort of the home, its selection and purchase should be characterized by more than ordinary care. When properly selected, its purchase becomes an act of true economy and a permanent investment; otherwise, wasteful extravagance. Considering its length of service, its price is small when compared even with the clothing you wear.

We Sell Beautiful, Durable, Comfortable. Representative Period Productions in Genuine Mahogany
Dining Room Suites, Library, Living Room, Parlor and other pieces.

The prices—well, compare our cash figures with any other furniture that will approach it in quality.
As we meet and greet our patrons personally, we have been overwhelmed with invitations to call at their homes to see how nice the furniture looks in their homes. We study their interests, and are gratified at the response our efforts meet.
Why cannot you be among our patron friends? We will do our part.

VIRGINIA U. S. SENATORS NOTIFIED OF RE-ELECTION

Martin and Swanson Guests at Dinner by Members of State Legislature.

Senators Thomas S. Martin and Claude A. Swanson of Virginia were formally notified of their re-election to the United States Senate at a dinner in the oak room of the Raleigh Hotel last night. Guests at the festive board were the members of the notification committee of both houses of the Virginia legislature, officials of the legislature and several members of the Virginia congressional delegation. Impromptu speeches were made, lauding the work of both senators in the upper house of Congress. The notification committee of the senate appointed to inform Senator Martin consisted of State Senators Early, Moncure and Hart, and the committee of the house of delegates, included Delegates Cox, Harwood, Coleman, Throckmorton and Weaver.

The senate committee appointed to inform Senator Swanson consisted of State Senators Rison, Drewry and Cummings, and the committee of the house of delegates included Delegates Williams, Baker, Bowman, Daniel and Love. With the committee were 34 D. Booker clerk of the house and keeper of the rolls. Others present at the dinner were Lieut. Gov. J. Taylor Ellyson, Delegate R. A. James of Danville and W. A. Garrett of James City.

By direction of the President all the public lands comprised in townships 24 and 25 south, range 4 east of the New Mexico principal meridian, in Dona Ana county, N. M., have been withdrawn from resale or other disposition, except such as may not be subject to reservation, and set apart for the purpose of a target range for the post of Fort Bliss, Tex., and for other military purposes.
